

Direct CSP

Grey Matter is a Direct cloud solution provider (CSP) – we can help you with your Microsoft cloud licences and services.

By joining the Microsoft Direct CSP program through Grey Matter you not only get your Microsoft cloud subscriptions you also get fully supported by Grey Matter. We are here to take away the hassles involved in understanding and managing your licensing, leaving you to focus on growing your business and doing what you do best.

Microsoft Azure

 Office 365

 Visual Studio

Flexible billing, scalability and cost savings

Moving to CSP can reduce the costs and significant upfront investment in Microsoft licensing by providing a simple monthly subscription model. Pay for what you use and increase or decrease your licences whenever you need to.

If you want the assurance of paying annually, CSP also gives you that option.

Cloud subscription management portal

Our cloud automation platform, GMCirrus™, makes it easier for you to manage your subscriptions. Add and remove licences easily and track your cloud usage through our portal whenever you need to. Please get in touch if you'd like a demo of the platform.

Technical support

Our technical engineers provide support for all Microsoft cloud services. Access to our unlimited 9-to-5 Cloud Assure Support service comes included in a CSP subscription at no additional cost, with the option to uplift to 24/7 if required.

We offer Office 365 and Azure migrations as well as DevOps services meaning we can help take the hassle away from your IT department and free up their time.

Licensing advice and account management

We are here to ensure that you get the most out of your IT spend. With dedicated account management and expert licensing advice we will support you throughout your journey of growth and are there to help with any queries you may have.
