

Adobe Creative Cloud K-12 licensing overview

Flexible licensing options for primary and secondary schools and districts.

Bring Adobe Creative Cloud to your school or district with affordable, easy-to-manage licensing options available through the Adobe Value Incentive Plan (VIP). You'll enhance teaching and learning—whether classes are in-person or online—while helping students develop essential digital skills for college and career success.

Benefits include:

Universal access for all ages

Give your students, teachers, and staff access to the latest industry-leading creative software so they can design, share, and publish compelling content across all media and devices. Even students under the age of 13 can have their own Creative Cloud accounts, provided that your school deploys in accordance with COPPA and other legislation.

Budget predictability and flexible deployment

A low-cost, flat-fee, single-license purchase with one annual or multiyear contract for devices owned or leased by the school, and users attending or working for the school. And all licensing options include a web-based Admin Console that makes it easy to centrally manage and deploy licenses.

Access for in-person, hybrid, and online learning classes

With named-user licenses, schools can give a student or teacher access to Creative Cloud on any device they use, including personal devices at home. This enables access to essential digital tools whether classes are in-person or remote. Schools can also purchase shared device licenses to allow access to Creative Cloud apps on a given device in the lab or classroom.

Integrates with the tools you already use

Your students and teachers are already using many different apps in their teaching and learning. With Creative Cloud integrations, we make it easier to access these tools through Google Workspace for Education, Microsoft Teams and OneNote, Canvas, and more.

Free instructional and online learning resources to help engage students

The Adobe Education Exchange <https://edex.adobe.com> offers free professional development lesson plans, courses, blog posts, and webinars from Adobe and partners like Khan Academy, Pixar in a Box, and more.

Licensing options:

Creative Cloud for enterprise All Apps for K-12

Named-user licenses

- Complete set of Creative Cloud applications and services (age-appropriate only)
- Licenses for each student, faculty, and/or staff member
- Scalable deployment for a school site or district
- Flexible license terms from 1–4 years
- US\$5 per license per year with minimum purchase of 500 licenses per school site or 2500 per district for qualifying new customers.**

Creative Cloud desktop apps

Shared device licenses*

- Complete set of Creative Cloud desktop applications (limited services)
- Licenses for each computer, rather than each user (ideal for labs)
- Scalable deployment for a school site or district
- Flexible license terms from 1–4 years
- US\$25 per license per year with minimum purchase of 100 licenses per school site and 500 per district**

The applications are not available in all countries or languages, may require user registration, and may be subject to change or discontinuation without notice. Additional fees or membership charges may apply.

* K-12 District License available to qualifying accredited primary and secondary or K-12 school legal entities (i.e. school districts). A legal entity may purchase and use district licenses across qualified primary and secondary school sites within the legal entity/school district and for use in administrative offices and/or a fully-owned educational training center used to educate active faculty and staff and/or enrolled primary and secondary school students.

Legal entity refers to an organization that has responsibility for the procurement and contract management of multiple individual primary and/or secondary schools, for example, a district, county, state, or government agency.

** Minimum order quantities vary by region.
