

# GIS Data Suite

**Powered by HERE.  
Delivered by Grey Matter.**

**Unlock high-integrity GIS data for Esri environments -  
faster, smarter, and with expert support.**

# Advance insights, not admin.

Why waste hours wrangling raw data when you could be driving real results? With HERE GIS Data Suite, delivered by Grey Matter, you get Esri-ready datasets that slot straight into your ArcGIS workflows, no manual prep, no headaches. Our specialists handle the heavy lifting, from integration to optimisation, so your team can focus on what matters: uncovering insights, making smarter decisions, and moving projects forward. We don't just deliver data - we deliver speed, confidence, and clarity.

## What's included

- > Globally consistent, quarterly refreshed GIS datasets
- > 75+ richly attributed datasets for transport, logistics, asset management, and more
- > Esri-ready formats: Vector tile packages, network datasets, locator files, historical traffic
- > Instant integration with ArcGIS Pro workflows

## Key benefits

### Reliable content

Built on HERE's 40 years of expertise and rigorous data quality

### Time savings

Eliminate prep work with preconfigured ArcGIS files and pre-styled vector tiles

### Greater insight

75+ datasets with traffic, truck, and location attributes

### Always up to date

Refreshed quarterly to keep you working with the latest information

## Features

- > Quarterly updated global data for accurate, up-to-date analysis
- > Flexible delivery options: project-specific or regional packages
- > Network dataset with historical traffic for ArcGIS Network Analyst
- > High-precision locator file for geocoding and point address data
- > Extensive POI data with detailed attribution
- > Road network attributes: tolls, height limits, weight restrictions
- > Vector tile packages for fast-loading, professional-quality basemaps
- > Ready-to-use maps and layers for immediate visualisation and analysis

## Why choose Grey Matter?

We're more than a reseller—we're your GIS and mapping specialist partner.

- > Expert guidance: Our mapping specialists help you select, configure, and deploy HERE GIS Data Suite for maximum impact.
- > Fast onboarding: We handle data prep and integration, so you spend less time wrangling files and more time generating insights.
- > Flexible delivery: Get exactly what you need—project-specific cuts or regional packages, tailored to your requirements.
- > Exclusive support: Direct access to our technical team for troubleshooting, optimisation, and ongoing advice.
- > Value-added services: Migration support, custom mapping, and integration with Azure Maps, TomTom, and more.
- > Trusted by leading tech teams: We've helped businesses harness location data to drive smarter decisions for over 40 years.

### Coverage

Global coverage, excluding China, North Korea, Japan, Russia, and other restricted or non-navigable markets.

For the full list of excluded countries, see:

[www.here.com/docs/bundle/routing-api-developer-guide-v8/page/coverage/non-navigable-countries](https://www.here.com/docs/bundle/routing-api-developer-guide-v8/page/coverage/non-navigable-countries)

### Ready to move faster with GIS data? Let's talk.

We'll help you unlock the full value of HERE GIS Data Suite—backed by Grey Matter's expertise, support, and service.

We are the partner of choice for businesses that want to harness the power of technology to succeed.
